Our spring-fed ponds and high standards of water quality ensure healthy fish 365 days a year. Our aquaculture facilities consist of two main greenhouses which house 88 concrete ponds, re-circulating over 1,000,000 gallons of water. As you tour our site, you'll find evidence of our experience, commitment and professionalism in every corner. The showroom, warehouse facilities, pond supply building, hatchery, and packing areas were designed with healthy fish and happy customers in mind.
